

3-D MAPPING FLAME AND GAS DETECTORS

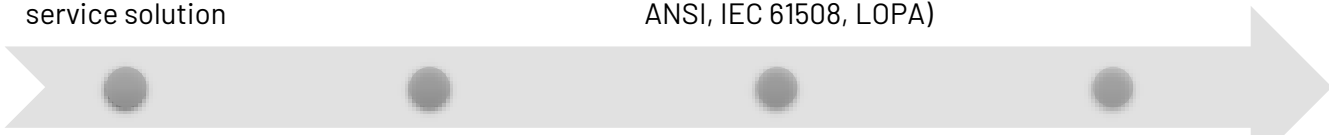

ABOUT US

Potentia's wide expertise and proven detection technologies along with 3D mapping software mitigates the risk, meet compliance requirements and advance safety to a new standards as the High-risk environments require the most optimized placement of detectors.

Advanced software Full-service solution

Answers established method and safety requirements (HSE, ISA 84, ANSI, IEC 61508, LOPA)

Statistical analysis

Quantitative Data & Reports

Features & Benefits of 3D Mapping

Identifies zero or limited coverage areas.

Optimizes placement and uncovers obstructions.

Hazard identification, risk mitigation and compliance.

Safety analysis and system optimization using 3D software mapping determines detector placement.

Our certified fire protection engineers identify zero coverage and obstructed view areas.

Report delivered using statistical analysis and assesment
