

## REFERENCE FUELS & PROCESS CHEMICALS

### Strengths

- ✓ Organosulfur and hydrogen sulfide chemistry
- ✓ Custom processing and fuel formulation
- ✓ Access to refinery process streams
- ✓ H<sub>2</sub>S and derivative chemistry
- ✓ Specialty hydrocarbons and fuel blending
- ✓ Application development, i.e., catalysts, odorants

### PROCESS CHEMICALS

- Octane Boosters
- Corrosion Inhibitors
- Dispersants

- Anti foams
- Cetane improvers
- Lubricity Improvers

- H<sub>2</sub>S Scavengers
- LPG Odorants
- Sulfidizing Agents

### REFERENCE & PERFORMANCE FUELS

- PRF n-heptane
- Iso-octane
- Octane Bend
- Fuel Additives

Products can be manufactured to meet strict specifications such as purity, sulfur content, lead content, specific gravity, distillation, and octane or cetane number.

### ABOUT US

Potentia has 25 years of rich experience in the oil and gas sector. Our products are utilized as raw materials, intermediates and in end-use applications, we offers a range of sulfur-based chemicals, alkanes, alkenes, aromatics and natural gas odorants. If you have unique needs in the areas of organosulfur chemicals, custom hydrogenation or specialty olefins, we definitely provide the solution.

### OUR OFFERINGS

We have the capability to supply test fuels for your specific requirements. If you are doing octane number requirement testing or need volatility test fuels for hot fuels handling, we have what you need. Products can be manufactured to meet strict specifications such as purity, sulfur content, lead content, specific gravity, distillation, and octane or cetane number.
