

WELLHEAD MANAGEMENT

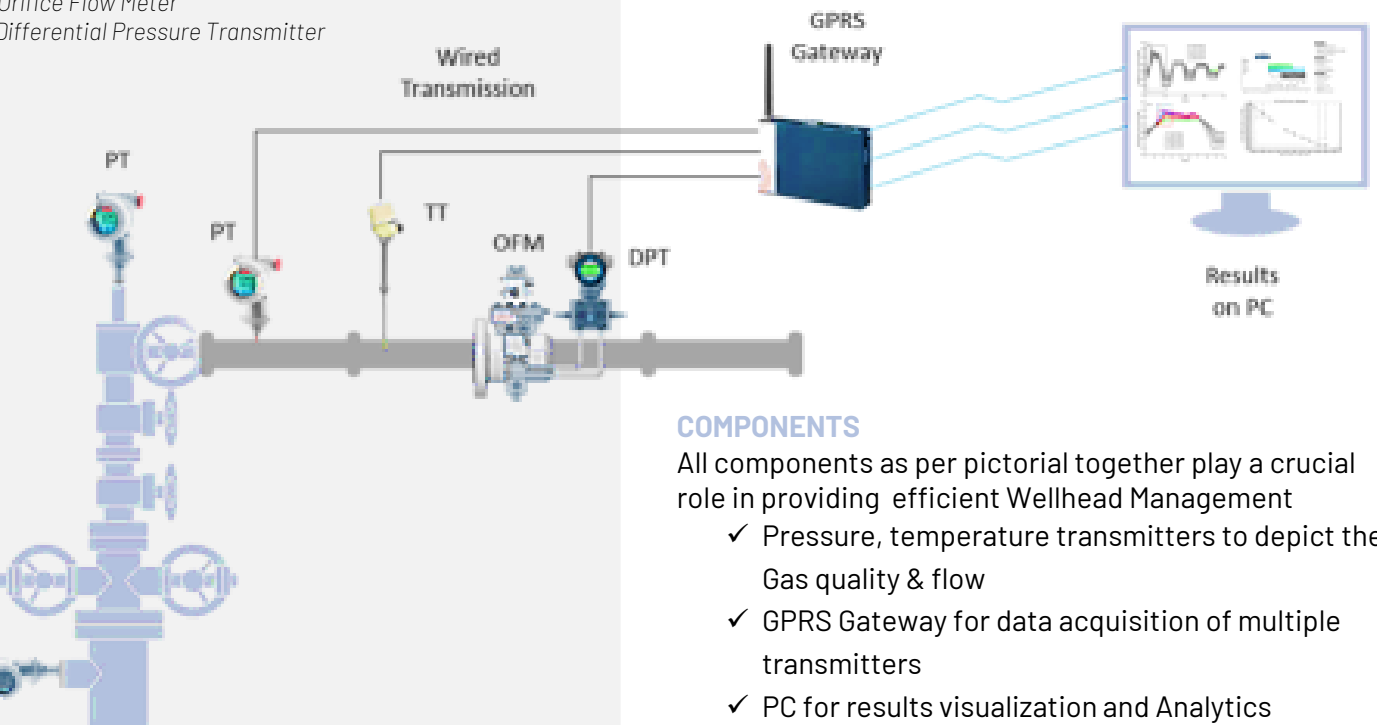

ABOUT US

Potentia with over 25 year of experience employing advanced and high-performance practices in Oil & Gas sector and combining its ability to provide highly engineered solution can provide the wellhead operators a turnkey system for the cost-effective management of Wellheads.

OUR OFFERINGS

A lack of reliable information about wellhead operation can often lead to missed production goals, increased maintenance, and costly environmental and safety issues. Potentia's cost-effective wellhead monitoring solutions can help you meet production goals and avoid unnecessary costs by obtaining actionable data locally or remotely and allowing you to apply that information to the safe and cost-effective operation of your wellhead system.

Pressure Transmitter
Temperature Transmitter
Orifice Flow Meter
Differential Pressure Transmitter

COMPONENTS

- All components as per pictorial together play a crucial role in providing efficient Wellhead Management
- ✓ Pressure, temperature transmitters to depict the Gas quality & flow
 - ✓ GPRS Gateway for data acquisition of multiple transmitters
 - ✓ PC for results visualization and Analytics

Minimize Emissions

Improve Energy Efficiency

Minimize Downtime and increase production

Reduce Cost

Drive Safety Performance
